The best performing cushioning solution for in the box protective packaging

The paper pad has tremendous shock absorbing capacity which means that the product will not be damaged when a box drops during shipment. The PadPak Senior (SR) converts 2 or 3 layer paper into exceptional cushioning pads which can be used to protect fragile products during shipment or storage.

Go Green
Our company works with FSC and SFI certified suppliers. Paper is a recyclable and a renewable source.
Specifications:

**Converter**
- Dimensions: 34" x 13" x 65"
- Weight: 495 lbs.
- Power: 120 VAC, 60 Hz, 10.4 Amps
- Feed Rate: 16" per second
- Cut Method: Automatic

**Paper**
- Paper Options:
  - 2-Ply: 30/30, 30/50, 50/50
  - 3-Ply: 30/30/30, 30/50/30
- Roll length (ft.): 450, 900, 1,350
- Roll weight: varies by ply configuration
- Paper width: 30"

Our Added Value

**Packaging Engineering**
Ranpak will analyze your current packaging solution and perform a drop test, demonstrating how much shock is transmitted to your products through the packaging. Ranpak then suggests proper packaging techniques to improve protection and save costs.

**Integrated Applications**
The Ranpak Custom Engineering department can design modifications, customizations and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

**Packaging Training**
Training from our packaging experts can help your packers use up to 20% less packing material without compromising the quality of the packaging.
